

# Fillet Weld Grinders

► Blend welds faster than ever before

## Unitized Wheels

### Scotch-Brite™ Rapid Cut Unitized Wheel

Scotch-Brite Rapid Cut Unitised Wheels combine proven Scotch-Brite technology with 3M's proprietary ceramic Precision Shaped Grain to make fast work of tough jobs like weld blending and heavy deburring. Now get everything you love about our Scotch-Brite abrasives – including a consistent finish and ease of use – with up to 3 times higher cut rates than the leading competitive wheels.

Size (mm)	Grade	Colour	Max. RPM	Ordering Code
150 × 3 × 25	9C CRS+	Red/Purple	7,500	61000060642
150 × 6 × 25	7C CRS+	Red/Green	7,500	AC010594854

### Scotch-Brite™ EXL Unitized Wheel

Scotch-Brite EXL Unitized Wheels feature a soft, conformable consistency that effectively smooths, deburrs and finishes the edges of metal alloys, as well as many plastics and composites. There are a variety of densities and grades starting from a very soft 2 density for applications requiring a conformability to a hard, aggressive 8 density for maximum cut and durability.

Size (mm)	Grade	Colour	Max. RPM	Ordering Code
150 × 3 × 25	8A CRS	Grey/Red	7,500	AC010594862
150 × 3 × 25	6A MED	Grey/Red	7,500	AC010594888
150 × 6 × 25	6A MED	Grey/Red	7,500	AC010594896
150 × 6 × 25	2S FIN	Grey/Purple	5,000	61500128766
